

All data is based on Fiscal Year 2018 to date (July '17 - January '18)

PDS has recently unveiled a new way for citizens and taxpayers to access financial records and data using OpenGov.

OpenGov is a platform that offers cloud-based software for public sector budgeting, reporting, and open data, powering more effective and accountable governments.

With OpenGov, you're able to view, filter, and analyze our sources of revenue, the program activities on which those resources are spent, and an overall accounting of PDS' current Fiscal Year 2018 budget.

PDS built its OpenGov environment around its five service programs.

- Community Planning Program
- General Government Program
- GIS Mapping / Analysis Program
- One Stop Shop Program
- Finances

What Does This Map Show?

One Stop Shop Program

- PDS' and community's share of program costs (View)
- Broken down by City/County (Filter)
- All report data may be downloaded (Download Menu)
- Map OpenGov data using LINK-GIS

NKYmapLAB

February 2018 Volume 4: Map 1

Northern Kentucky mapLAB is a copyrighted, published product of Planning and Development Services of Kenton County. The goal of the initiative is to analyze a wide variety of public data and present them in a more visual format that facilitates understanding by the public and its elected leaders. Suggestions for future analyses are always welcome.

PDS OpenGov

Current OpenGov Agency or Client

PDS One Stop Shop Participant* Jul. 2017 - Jan. 2018 (FY to date)

PDS' share of One Stop Shop cost: **\$92,054**

City's share of One Stop Shop cost: **\$7,161**

*Not all cities in Kenton County participate in PDS' One Stop Shop Program

direction 2030

Your Voice. Your Choice.

Goals and Objectives

C Community Identity
E Economy
G Governance
H Health
HC Healthy Communities
M Mobility
N Natural Systems
Primary Goal
Secondary Goal

How Does This Topic Apply to Direction 2030?

G Encourage cooperative governance.

G Continue to encourage the sharing of technical tools and resources effectively reducing the cost of the system.

E Identify opportunities for effective sharing of services.

Implementation:
PDS' One Stop Shop program unites the codes administration responsibilities of many of Kenton County's local governments under one roof. The program is built on PDS' "critical mass" of professionals, providing economies of scale that are impossible for local jurisdictions to match and levels of service local jurisdictions can't afford.

What Type of Data is Available in PDS' OpenGov?
